Is the state of our lakes and other bodies of water of interest to you? Would you like to learn more about the fish life we find in Brome Lake and its surrounding wetlands? What bird life is found here? Why should these areas even be protected? Which projects will be carried out in 2012? Is the over health of the lake gradually improving? What has happened to the more heated issues from 2011-2012: Colibris pier development project; Mount Foster development; the urban plan; shoreline headaches; tree planting, etc.?

AGA 2012

Renaissance Brome Lake cordially invites all citizens to this informal meeting on June 9 at the community centre, 270 Victoria, beginning at 9:30. This is an annual rendez-vous not to be missed by anyone who has the health of the lake at heart. And bring your neighbours along with you.
